

CLUBSONAR WELCOMED ONBOARD LUTINE 17TH MAY 2011 ST. KATHERINE DOCKS, LONDON

On Tuesday 17th May representatives from the first group of London insurance market clubs to join www.clubsonar.co.uk met on board Lutine in St. Katherine Docks. Our grateful thanks to Liz Lotz Commodore of the Lloyd's Yacht Club for allowing us use Lutine and thanks also to Christopher Gillingham, Skipper of Lutine for looking after us on board.

Liz welcomed everyone aboard Lutine, which is the yacht used by club members. It was certainly interesting to see so many people below decks! Lutine is in London as a promotional trip so that London based individuals can come and have a look around. She arrived on Sunday and sailed, under spinnaker, under Tower Bridge: photographs are available on the web-site. Liz promoted the club, stating that Lutine is available for use at weekends by club members, but during the week the yacht is chartered out to corporate guests.

Martin Robinson Director and Co-founder of ClubSonar introduced the guests aboard, the representatives of the clubs who were joined by Mark Whitworth from Mercedes-Benz Hertfordshire our first ClubSonar sponsor, Greame Matthews from GM Consulting and Andrew Driver from Impact Media.

The meeting provided the opportunity for the club representatives to meet and discuss the development of their clubs in the London insurance market and ideas for enhancing the ClubSonar site. Those who attended were very pleased to be invited aboard and enjoyed the refreshments provided by ClubSonar.

Since the launch in February 2011 over 20 clubs and societies have joined ClubSonar, these include Squash , Motor, Yacht, Football, Lloyd's Under 35s Marine Group, 8 language Clubs, The Canterbury , Folkestone and East Kent Chartered Insurance Institute, Rugby, Three Rooms, Cricket, Gun, Acord & Cycling. ClubSonar is developing rapidly and more market clubs will be joining soon.
